Total Time
1 d 20 mins

No ratings yet

Supplies

- DecoArt Glass Stain in colors of your choice
- Recycled jars jelly, mayonnaise, etc

Instructions

1. Paint the stain onto the jar with a paintbrush, not truly smoothing it out or taking any care with the design. Wipe the excess back and forth with the brush until it takes on a slightly tacky feel.
2. Use another color and (again, roughly) add a few patches of alternating color.
3. That's truly all their is to it. Allow them to dry 24-hours before using.
