

Bottle Cap Flower

Turn old bottle caps into a rustic bottle cap flower to display in potted plants or right in your garden. Safe to leave outside too!

Author: Amanda Formaro

5 from 4 votes

Supplies

- 12- inch wooden dowel
- Canning lid
- 15 bottle caps
- Pliers
- Strong bond glue such as E6000

Instructions

1. Use a pair of pliers to bend 12 of the bottle caps in half, like a book.
2. Glue a bottle cap to the center of the canning lid.
3. Turn two of the “petal” bottle caps so that they are back to back. Do this with all of the petals; you will have 6 pairs.
4. Glue all six pairs of the bent bottle caps to the canning lid, going around the center bottle cap.
5. Glue two bottle caps to the sides of the dowel as leaves.
6. Allow the glue to dry completely before trying to move the flower.
